SUBJECT INDEX

VOLUME 68, JULY-DECEMBER, 1969

ORIGINAL ARTICLES AND NOTES, CASES, INSTRUMENTS

Note: Abstract Index follows Author Index

A

- A- and V-patterns in isolated vertical muscle palsies, 1095
Abscess, subconjunctival, cysticercus cellulosae causing, 714
Adenocarcinoma, metastatic mucinous, of eye, 1053
Adhesive, evaluation of, in cataract wound closure, 663
Adhesive joints, tensile strength of, between eye tissues and alloplastic materials, 248
Alloplastic materials, tensile strength of adhesive joints between eye tissues and, 248
Amaurosis, acute nonsuppurative meningoencephalitis associated with transient, 105
Amblyopia, alcohol and tobacco: A historical survey, 569
Anesthesia in ocular muscle surgery, 910
Aneurysm, intracranial, unilateral internal ophthalmoplegia with, 349
Angiography, fluorescein, of malignant melanomas of choroid, 797
Angle recession, 515
Anophthalmos, repair of enophthalmic, 936
Anterior chamber, angle of, estimation of width of, 626
depth, effects of miotics on, 78
glass membranes, 308
Anterior-loop fibers, damage to, of optic chiasm, 630
Antilymphocyte serum and corticosteroids, potentiation of *Candida albicans* keratitis by, 675
Aphakia, correction of, with corneal contact lenses, 319
Arachnoiditis, chiasmatic, 345
Aspiration technique in management of dislocated lens, 808
Automation of clinical records for ophthalmologist, 274

B

- Bacterial, culture, evaluation of a new, and sensitive device, 323
pseudomycosis of orbit, 504
β-rays, effects of, on DNA synthesis during corneal wound healing, 291
Blepharitis, staphylococci, complications of, 446
Blepharoptosis, congenital, in one of monozygotic twins, 1089
surgical treatment of, 92
Blindness (Leber), congenital retinal, hereditary syndrome of, 1029
Bone, fibrous dysplasia of, 513

Brooke's tumor: hereditary adenoid cystic epithelioma, 26

C

- Candida albicans* keratitis, potentiation of, by antilymphocyte serum and corticosteroids, 675
Caruncle, mycosis fungoides involving, 719
CATARACTS, corticosteroid-induced, and palatoschisis in mouse fetus, 128
cryoextraction of, method of iris retraction during, 146
rat, induced by suckling mouse cataract agent, 304
sutural, X-chromosomal-linked, 867
wound closure, evaluation of adhesive in, 663
Chiasm, arachnoiditis of, 345
Children, infants, unilateral proptosis secondary to orbital mucocele in, 845
Cholinesterase inhibitors, topically-applied irreversible, localization in cornea and lens of, 848
Chorioretinal lesions in rabbits by low-frequency ultrasound, 84
Choroid, malignant melanomas of, fluorescein angiography of, 797
Choroidopathy, arteriosclerotic, pigment epithelium changes in, 412
Ciliary body, norepinephrine uptake, ocular tension and, in experimental Horner's syndrome, 1076
Collagenase in alkali-burned cornea, role of, 478

Conjunctival buttonhole in glaucoma surgery, tissue adhesive for repair of, 656

Conjunctivitis, mucopurulent, and hemophilus, 35

CONTACT LENSES, corneal, correction of aphakia with, 319

protective, for eyelid surgery, 148

wetting solutions, irritation of rabbit eye caused by, 703

Copper in hypercupremia, ocular deposition of, 423

CORNEA, alkali-burned, role of collagenase in, 478
calcification in, with alloxan-induced vascularization, 113

cryopreservation of, 454

grafts of, in Fuch's endothelial dystrophy, 820

localization in, and lens of topically-applied irreversible cholinesterase inhibitors, 848

polymorphous, hereditary deep dystrophy of, 777

ulcers of, in rubeola, 996

wound, effect of β -rays on DNA synthesis during healing of, 291

CORRESPONDENCE:

CORTICOSTEROIDS, cataract and palatoschisis induced

by, in mouse fetus, 128

ocular tolerance of, 699

potentiation of *Candida albicans* keratitis by anti-lymphocyte serum and, 675

topical, on intraocular pressure in Africans, influence of, 640

Cryoextraction of cataract, method of iris retraction during, 146

Cryopreservation of cornea, 454

Cyclodialysis with Teflon tube implants, 879

Cystercercus cellulosae causing subconjunctival abscess, 714

D

Disc, choked, optic nerve sheath decompression for relief of chronic monocular, 633

DNA synthesis, effect of β -rays on, during corneal wound healing, 291

Drugs, autonomic effector, and normal human eye, 216

DYSPLASIA, fibrous, of bone, 513

hereditary diaphyseal (Engelmann's disease), ocular findings in, 100

DYSTROPHY, hereditary deep, of cornea (polymorphous), 777

myotonic, ocular histopathology of, 416

ocular resting potential in, 863

 Intraocular dynamics, effects of indomethacin on, 313
 Intraocular pressure: See Ocular tension
 Intraocular surgery, pathology of complications of, 1037
 Iris processes in 340 eyes, 872
 Iris retraction, method of, during cryoextraction of cataract, 146

K

KERATITIS, *Candida albicans*, by antilymphocyte serum and corticosteroids, potentiation of, 675
 chronic viral, circulatory lymphoid cells in, 824
 experimental herpes simplex, 458
 herpes simplex, interferon induced by double-stranded RNA in, 486
 interstitial, and glaucoma, 241
 unusual, from household remedy, 858
 Keratometer, method of extending range of, 931
 Keratomycosis, experimental, chemotherapy of, 812
 Keratoplasty, ocular tension following penetrating, 835
 refractive, instrumentation and techniques for, 282
 suppression of immune response in, 829
 Keratoprosthesis, mushroom transcorneal, 604

L

Lagophthalmos, physiologic, 355
 Lamina cribrosa: optic nerve, angioarchitecture of, 986
 Laser radiation, argon, ocular histopathologic effect of krypton and, 263
 Leber's idiopathic stellate retinopathy, 340
 LENS, autodislocation of, in congenital rubella syndrome, 933
 capsule in tissue culture, histogenesis of, 435
 changes in chronic granulocytic leukemia, 500
 dislocated, aspiration technique in management of, 808
 effect of echthiophate iodide on, 1003
 localization in cornea and, of topically-applied irreversible cholinesterase inhibitors, 848
 rabbit, uptake of tritium-labeled phospholine iodide, 123
 Leprosy, unsuspected ocular, 492
 Lesions, chorioretinal, in rabbits by low-frequency ultrasound, 84
 ocular, following fifth-nerve injury in rats, 1082
 Leukemia, lens changes in chronic granulocytic, 500
 Levorine, studies of effects of, 119
 Lymphoid cells, circulatory, in chronic viral keratitis, 824

M

Macula, degeneration of, local electroretinogram in, 296
 disease, subjective slitbeam sign for, 449

OBITUARIES:
 Ralph I. Lloyd, 953
 Martin Hayward Post, 164
 OCULAR TENSION, ciliary body norepinephrine uptake and, in experimental Horner's syndrome, 1076
 effect of, on optic nerve discharge, 594
 following penetrating keratoplasty, 835
 influence of topical corticosteroids on, in Africans, 640
 Oguchi's disease, histologic study of, 19
 Operations, fistulizing, on Africans, excision on Tenon's capsule in, 336
 Ophthalmitis, sympathetic, 508
 Ophthalmodynamometry, semiautomated suction, 237
 Ophthalmology, Hippocrates and, 1069
 Ophthalmoplegia, unilateral internal, with intracranial aneurysm, 349
 Optic chiasm, damage to anterior-loop fibers of, 630
 Optic cup in normal eye, 401
 OPTIC NERVE, angioarchitecture of:
 lamina cribrosa, 986
 papilla, 979
 discharge, effect of intraocular pressure on, 594
 pathophysiology of distal portion of, 594
 sheath decompression for relief of chronic monocular choked disc, 633
 ORBIT, anterior, meningoencephalocele of, 144
 bacterial pseudomycosis of, 504
 blow-out fracture of, hypocycloidal tomography and, 483
 floor reconstruction of, Dacron mesh-based implants for, 914
 histoplasmosis of, due to histoplasma duboisii, 14
 metastatic neuroblastoma of, 1093
 mucocele of, in infancy, unilateral proptosis secondary to, 845
 neoplasms of, unusual, 407
 nonchromaffin paraganglioma of, 659
 rhabdomyosarcoma of, management of, 906
 sarcomas of, rare primary, 919
 Orbitography, 205
 Ossification and hematopoiesis, intraocular, 683

P

Palatoschisis in mouse fetus, corticosteroid-induced cataract and, 128
 Palsies, isolated vertical muscle, A- and V-patterns in, 1095
 Papilla: optic nerve, angioarchitecture of, 979
 Paraganglioma nonchromaffin, of orbit, 659

Perimetry, pupil motor, 108
 Phoria, physiological position of rest and, 706
 Phospholine iodide, rabbit lens uptake of tritium-labeled, 123
 Photokeratoscope, simplified, 517
 Pigment epithelium changes in arteriosclerotic chorioidopathy, 412
 Pilocarpine solutions, 1099
 Postcycloidalysis hypotony, 644
 Proptosis, unilateral, secondary to orbital mucocele in infancy, 845
 Prosthokeratoplasty, present status of, 613
 Pseudomycosis, bacterial, of orbit, 504
 Pterygium, management of, and its recurrence, 353
 PUPIL, apparent, dimensions of, when viewed at oblique angles, 649
 motor perimetry, 108

R

Radiologic methods in neuro-ophthalmologic problems, 883
 Records, automation of clinical, for ophthalmologist, 274
 Rest and phoria, physiological position of, 706
 RETINA, detachment and reattachment of, experimental, in Rhesus monkey, 58
 detachment of, secondary, 223
 giant tears of: clinical management with intravitreal air, 1011
 giant tears of: experimental production and management with intravitreal air, 1022
 in vitro, human, electrical activity of, 925
 photographs of, comparison of methods of measuring vessel widths on, 1060
 Retinal blindness (Leber), congenital, hereditary syndrome of, 1029
 Retinopathy, in Rocky Mountain spotted fever, 42
 Leber's idiopathic stellate, 340
 why is a ? 427
 Rhabdomyosarcoma, orbital, management of, 906
 RNA, double-stranded, an interferon inducer, in herpes simplex keratitis, 486
 Rocky Mountain spotted fever, retinopathy in, 42
 Rubella syndrome, congenital, autodislocation of lens in, 933
 Rubeola, corneal ulcers in, 996

S

Sarcomas, orbital, rare primary, 919
 Sheath, decompression of optic nerve, for relief of chronic monocular choked disc, 633
 Slitbeam sign, subjective, for macular disease, 449
 Staphylococci blepharitis, complications of, 446
 Staphyloma, peripapillary, with respiratory pulsation, 895
 Strabismus and insertion of horizontal rectus muscles, 695
 Subconjunctival abscess, cysticercus cellulosae causing, 714

Succinylcholine sensitivity, myopathy and, 789
 SURGERY, eyelid, protective contact lens for, 148
 glaucoma, tissue adhesive for repair of conjunctival buttonhole in, 656
 in blepharoptosis, 92
 intraocular, pathology of complications of, 1037
 irradiation of nevi of eyelid margin by, 715
 ocular muscle, anesthesia in, 910
 SYNDROME, congenital rubella, autodislocation of lens in, 933
 experimental Horner's, intraocular pressure and ciliary body norepinephrine uptake in, 1076
 hereditary, of congenital retinal blindness (Leber), 1029
 idiopathic stellate, of Leber, 340
 Syphilis, congenital ocular, 467

T

Table, overbed hospital, 147
 TEARS, giant retinal: clinical management with intravitreal air, 1011
 experimental production and management with intravitreal air, 1022
 Tears, human, immunoglobulins in, 898
 Tenon's capsule, excision of, in fistulizing operations on Africans, 336
 Thio-tepa, topical, side-effects of, 473
 Tissue adhesive for repair of conjunctival buttonhole in glaucoma surgery, 656
 Tolerance, ocular, of corticosteroid formulations, 699
 Tomography, hypocycoloidal, and orbital blow-out fracture, 483
 Trabeculotomy, new, 430
 Treponemalike forms and artifacts, 197
 Twins, monozygotic, congenital blepharoptosis in one of, 1089

U

Ulcers, corneal, in rubeola, 996
 ULTRASOUND, low-frequency, chorioretinal lesions in rabbits by, 84
 scan system, hand-operated, for ophthalmic evaluation, 256

V

Vitreoretinopathy, familial exudative, 578
 Vocabularly, Shakespeare's ophthalmologic, and concepts, 1

W

Wetting solutions, contact lens, irritation of rabbit eye caused by, 703

X

X-chromosomal-linked sutural cataracts, 867
 X-ray therapy of experimental malignant melanoma of hamster eye, 328

FLUORESCENCE (continued)

- unique, in photoreceptor of retina, 549
- Fluorophotometry, drugs on aqueous flow in man and, 753
- Foreign bodies, retained intraocular, localization of intra-ocular, with low-vacuum contact lens, 1141
- Foreign body in the orbit, A, 1165
- Fornix, inferior conjunctivitis, mucous thread of, 560
- Fovea, central, photochemistry of, 187
- positional control of laser photocoagulator lesions near, 747
- vitelliform dystrophy of, electro-oculography of, 969
- Fowl, domestic, light induced exophthalmos in, 170
- FRACTURES, blowout, of medial orbital wall, 1157
- blowout, of orbit, 766
- maxillary-orbital, 381
- of the orbito-maxillo-malar region, 1158
- without, loss of vision due to head injury, 772
- Free radicals in retina from electron spin resonance, 548
- Freezing point of lens and vitreous body in newborn and sexually mature rabbits, 742
- Frequency characteristics of the saccadic eye movement, 1134
- FROG, efferent fibers in optic nerve of, 182
- ERG of, fine structure of, 177
- ganglion cells in retina of, inhibitory receptive field and long-latency response in, 176
- isolated retina of, delayed off-responses in, 179
- Fronto-ethmoidal mucocoele as a cause of unilateral prop-tosis, 1158
- Fronto-temporal flaps, orbito-palpebral reconstructions and, 768
- Fuchs' heterochromic cyclitis and unilateral simple glaucoma, 751
- method for removal of vitreous prolapse with two-way syringe, 758
- FUNDUS, fluorescein angiography of ocular, 968
- the, in a case of Schoenlein-Henoch purpura, 1164
- flavimaculatus: two familial cases with macular degen-eration, 1154
- ocular, in aortic stenosis, 1162
- oculi, fluorescent angiography of, 556
- optic, optical anisotropy of, 189
- photography, occlusion of retinal artery studied by fluorescein, 759
- of conjugated fluorescein for, 192
- tumor-like lesions of, 556
- FUNGUS, contamination, of conjunctiva and lid margin, 967
- of donor eyes, 967
- saprophytic, in anterior chamber, 188
- Furacin in external ocular infections, 190

G

- Gamma-aminobutyric acid and sodium l-glutamate, effects of, on visual system and EEG of chicks, 177
- Gamma irradiation, acute whole-body neutron and, eye findings in goats after three years of, 386
- GANGLION CELLS, activity and local ERG of cat retina, 180
- inhibitory receptive field and long-latency response of, in frog retina, 176
- of retina, 535
- cessation of DNA synthesis in, 537
- Garogoylism, chromatographic research on aqueous humor in, with corneal dystrophy, 173
- Gases, absorption of, from anterior chamber of eye, 550
- Gaze-evoked eyelid and ocular nystagmus inhibited by near reflex, 763
- Gaze, paralysis of, isolated congenital horizontal, 971
- Gel filtration of chick lens proteins, 184
- Genetics, new concepts in, 537
- GENICULATE, lateral body, visual field and, 171
- lateral, cells in rat, direction of movement and stimu-lus parameter for, 547
- nucleus of dorsal lateral, fiber degeneration in cat's, 378
- Gentamycin sulphate, bacteriologic and clinical investi-gations with Gentamycin sulphate in ocular infections, 1140
- Geriatric opthalmology and reading ability in elderly, 387
- Glare measurements, disability, role of pupil in, 181
- GLAUCOMA, 973
- absolute, histological changes of trabecular meshwork in eye with, 973

GLAUCOMA (continued)

- acute and retinal edema, transient myopia with, 553
- and diabetes, 752
- chronic, selective atrophy of radial peripapillary capil-laries in, 974
- chronic simple, and clofibrate, 369
- inversion of disc and temporal field loss in, 756
- open-angle, acetylcholine and, 752
- water dehydration test and, 753
- combined, 370
- combined, cataract operations, 1149
- computer use for, in clinics, 974
- cortisone, experiments in, 755
- detection of, 368, 370
- effects of macromolecular substances into anterior chamber of rabbit eye, 564
- experimental studies concerning cortisone-glaucoma. The effects of pure glucocorticosteroids and of adju-vants upon isolated intraocular muscle strips, 1139
- experimental studies concerning cortisone, Part I: In-troduction, 1150
- familial, 370
- and elevated episcleral venous pressure, 370
- hemolytic, 974
- in P. Robin's syndrome, 963
- induced by steroids, as cause of blindness, 368
- lens tension, in mother and daughter, 756
- light-induced avian, angle closure in, 755
- ocular complications of drugs, 552
- open-angle, tests of anticholinergic medication in, 369
- primary, psychosomatic factors in, 369
- primary simple, extraction of senile cataract and, 974
- screening in Dresden up to 1967, results from, 1149
- screening program, diurnal ocular tension variation in, 974
- secondary to trauma, 752
- secondary, following orbital venous obstruction, camero-venous shunt for, 1150
- shallow-chamber, in aphakia, 565
- simple, dyschromatopsia and, 754
- suspect, circular static perimetry in, 565
- traumatic, pathogenesis of, 368
- typical phakolytic, 755
- unilateral simple, Fuchs' heterochromic cyclitis and, 751
- Glaucomatocyclitic crises, gonioscopy and tonography in, 565
- GLOBE, perforated, urgent medical therapy in, 386
- perforating trauma of, and age, sex, occupation and agent, 386
- in 90 cases, 386
- with foreign body, 386
- Glucose, steady-state levels of, in different layers of cornea, aqueous humor, blood and tears in vivo, 179
- Glutamine synthetase, induction of, and hydrocortisone, in chick-embryo retina, 176
- Glutathione, permeability of normal and cataractous rab-bit lenses to, 757
- peroxidase from bovine lens, 742
- Glycogen storage disease type 1, retinal changes in, 374
- Glycosyl transfer enzymes of bovine retina, 743
- Goldenhar's syndrome, 964
- with bilateral Duane's retraction syndrome, 738
- Goldfish, adaptation of retina in, 534
- visual contrast thresholds in, 169
- Goniohaemorrhage in heterochromic cyclitis, 972
- Gonioscopy and tonography in glaucomatocyclitic crises, 565
- Goniotomy with intraocular illumination, 554
- and angulocision, two instruments for, 1142
- Gout and uveitis, 563
- Grafts, fascial, cellular elements in, 743
- 500 corneal, 750
- fresh and frozen corneal tissue, in dogs, 563
- Granulomatosis, Wegener's, 771
- Green turtle, vision in sea-finding orientation of, 535

VISION (continued)

- scotopic, rods as color receptors in, 175
- VISUAL ACUITY, 543**
 - in five species of deer mice, 535
 - spatial integration effect in, 546
 - test, for partially sighted non-readers, 745
 - for pre-school children with sub-normal vision, 745
- Visual adaptation of rhodopsin rods in frog's retina, 542
- Visual centers in mice, centripetal stimulation of post-natal growth of, 539
- Visual contrast thresholds in goldfish, 169
- VISUAL CORTEX, cells, angular selectivity of, 185**
 - nystagmus and activity of, 544
- Visual cortex, changes in, of rats after unilateral deprivation, 762
 - connections in, of cat, 536
 - electrical stimulation of, 765
 - fiber degeneration in dorsal lateral geniculate nucleus of cat's, 378
 - influence of serotonin and LSD on, in rat, 185
 - primary, functional synaptic organization of neurons of, in cat's, 536
 - receptive fields of cells in, 545
 - subcortical lesions on brightness discrimination acquired by rats without, 543
 - transient defects of, with paroxysmal hypertension, 761
- Visual delay, human rod, 740
- VISUAL DISCRIMINATION, after extensive ablation of optic tract and visual cortex in cats, 761**
 - in monkey after serial ablation of inferotemporal and preoccipital cortex, 379
- Visual-evoked potentials, development of, in optic tectum of chicken, 172
- Visual excitation, molecular basis of, 178
- VISUAL FIELD, aminquinolones and, 746**
 - and lateral geniculate body of albino rat, 171
 - bilateral horizontal hemioanopia and, 765
 - central, in diabetes, 969
 - defects due to opacities in the optical media, 1141
 - dependency in pigeons, 545
 - in indirect injuries to optic nerve, 772
 - in unilateral aphakia, 969
 - right and left, handedness, eyedness and perceptual stability of, 740
- Visual function, acoustic sensory stimulation on, 763
 - in divers at 15 to 26 atmospheres pressure, 385
 - in traumatic rupture of choroid, 386
- Visual illusions and memory, 764
- Visual maturation, belated, in mentally retarded, 763
- Visual pathways, central, during dark adaptation, tonic neuronal activity of, 541
- Visual pattern discrimination in binocularly occluded albino rats, 545
- Visual performance, ophthalmic two percent pilocarpine and, 190
 - vestibular nystagmus and, 762
- Visual physiology, optics and, 552
- VISUAL PIGMENTS, analysis of, with computer, 182**
 - and visual range underwater, 182
 - bathochromic shift in, 548
 - structure of, I. Purification, molecular weight, and composition of bovine pigment, 1136
 - structure of, II. Binding of retinal and conformation changes on light exposure in bovine visual pigment, 1136
 - their spectra and isomerizations, 1134
- Visual projection in optic tectum in foveate marine teleost, 170
- Visual range and visual pigments underwater, 182
- Visual recall ability and eye movements, 550
- Visual receptors and retinal interaction, 743
- Visual stimuli, detection of, 176
 - pneumatic system for presenting, 191
- Visual suppression prior to onset of voluntary saccadic eye movement, 967
- VISUAL SYSTEM, and EEG of chicks, effects of gamma-aminobutyric acid and sodium l-glutamate on, 177**
 - electrophysiology of, in nudibranch mollusc, 170
 - influence of CS₂ on, 968
 - single and multiple, in arthropods, 171
- Visually evoked potentials in kittens: specific and non-specific responses, 545
- Visually guided behavior, red nucleus in, 544
- Visually handicapped motor vehicle drivers, 773
- VITAMIN A, and chalazia, 383**
 - and xerosis, 383
 - deficiency and mosquito eye ultrastructure, 549
 - deficiency with xerophthalmia and night blindness in cystic fibrosis, 1163
 - deficient calves, 1152
 - in eye of pulmonate snail, 545
- Vitamin C, ascorbic acid content of aqueous humor and blood in rabbit after, 754
- Viteliform dystrophy of fovea, electro-oculography in families, 969
- VITREOUS, body, freezing point of, in newborn and sexually mature rabbits, 742**
 - body, photoelastic studies of, 758
 - prolapse of, surgical treatment of, 756
 - toxic effect of hemoglobin on, 756
 - composition and fine structure of, in owl monkey, 776
 - detachment, 758
 - deturgescence, 1151
 - luxated and subluxated lenses, cryoextraction and, 979
 - luxation of lens into, by trauma, 371
 - prolapse, removal of, with two-way syringe according to Fuchs, 758
 - synthesis of hyaluronic acid in, 739
 - removal of herniated, from the anterior chamber, 1153
- Vitritis, X-ray irradiation, carotid artery occlusion and collagen vascular disease, 377
- Volume of eyeball and scleral rigidity, 753
- von Hippel-Lindau disease, incipient lesions of, 372

W-X-Z

- Water transport, dynamics of, in corneal stroma, 183
- Weariness and optical reaction time, 185
- Wegener's granulomatosis, 771
- Whole-body neutron, acute, and gamma irradiation, eye findings in goats for three years after, 386
- Wilm's tumor, and congenital aniridia, 174
- metastatic to orbit, 769
- Wilson's disease, copper study in aqueous of family with, 771
- Wire speculum, aspirating fine, 554
- Xanthogranuloma, juvenile oculodermal, 384
- Xanthomas, fibrous, of conjunctiva, 561
- Xeroderma pigmentosum, 771
- Xerosis, Vitamin A and, 383
- X-ray irradiation, carotid artery occlusion, collagen vascular disease, and vitritis, 377
- X-ray localization of intra-orbital foreign bodies, 555
- Zollner illusion, background density and, 546
- Zonulolysis, enzymatic, retinal detachment after cataract surgery with, 757
